## Celebrate Family Literacy Month with us!

**Make and Take** - Wednesdays, November 1, 15 & 29 at 3:30 p.m. - Join us at the library for an amazing activity that you can take home with you! All ages welcome.\*

**Rad Robots: Robotics demo with local community member and former engineer Howard Drake** - Thursday, November 2 from 3:30 to 4:30 p.m. - Are you crazy about cyborgs? Bonkers for bionics? Join us for a robotics demonstration as we learn about robots built from LEGO "Mindstorms" kits, a color detecting, line following robot, and talking turtle robots. We'll learn what skills are required to build a robot, then interact with the robots ourselves! Make sure to try the ultrasonic sensor (echo location) on the robots -- it's the coolest! Ages 7+ and their families.

**Game On** – Tuesdays, November 7, 14, 21 & 28 at 3:30 p.m. - Weekly Game On program alternates between Just Dance (all ages) and Minecraft Mania (ages 8-17).

**Make! With Technocopia: Vinyl Sticker Edition** – Wednesday, November 8 from 3:30 to 4:30 p.m. - Have you ever wondered what a makerspace is? Are you fascinated with the idea of a FabLab? Join us for a maker fair and vinyl sticker workshop with Travis from Technocopia to discover the wonders of DIY technology! We'll learn about all the different tools in a makerspace, including 3D printers, laser cutters and vinyl sticker machines. Then we'll get to make stickers of our own! We'll also make our own buttons and 3D doodle designs. Makers unite! All materials provided; ages 7+ and their families.

**Baby Chicks!** - Expected hatch date: November 14-16 - Chick it out! Our incubated eggs are expected to hatch anytime between November 14-16. Come in beforehand to take a peep at the egg observatory and to submit your egg-cellent name suggestions. Names will be drawn randomly.

\*Some weeks may include small pieces, alternative activities will be available for small children.
