Vinyl Sticker Edition

Have you ever wondered what a makerspace is? Are you fascinated with the idea of a FabLab? Join us for a maker fair and vinyl sticker workshop with Travis from Technocopia to discover the wonders of DIY technology!

We'll learn about all the different tools in a makerspace, including 3D printers, laser cutters and vinyl sticker machines. Then we'll get to make stickers of our own! We'll also make our own buttons and 3D doodle designs. Makers unite! All materials provided; ages 7+ and their families.
