

# Early Engineers

**Mondays, September 17,  
October 1 & 15, November 5  
4 - 5 p.m.  
Main Library**

This interactive STEM program will introduce creative kids to problem-solving through 4 weekly building challenges. Inspired by stories of how real structures were created, kids will engineer their own versions of a tower, a bridge and more using a variety of materials. For ages 6-8.
