Worcester Public Library Offers Free Math and Computer Programming Tutoring for Adult Learners

Drop-in program offered January 22, February 12 and 26

Worcester, MA – The Worcester Public Library will offer Math and Computer Programming Tutoring for Adult Learners on Wednesdays, January 22, February 12 and 26 from 5:30 to 6:30 p.m. at the Main Library, 3 Salem Square. The program is for adults ages 18 and up who need extra help with math or computer programming.

The volunteer instructor for the sessions is an experienced math tutor and computer programmer.

“For adult learners, if you want to get a better grade for your math and computer classes, or if you are trying to learn new skills to prepare for a career change, this is a great opportunity to get one-on-one help,” said Pingsheng Chen, WPL Public Services Coordinator.

The drop-in tutoring sessions are designed to help adult learners with homework, test preparation, and self-study. No appointment is required during these drop-in hours. The program is free and open to the public.
